PREFACE

The 2011 Visitor Plant Inventory (VPI) report was produced by Hospitality Advisors, LLC for the Hawai'i Tourism Authority (HTA).

As part of the Tourism Research program, HTA conducted a survey on statewide visitor accommodations in 2011. This report provides the results of this survey presenting statistics on the number of visitor units, island distribution, type of property and class of rooms. As in previous reports, island and district names were written in proper Hawaiian language orthography. However, individual property names were not written in the same manner unless the words were easily identifiable (i.e., island names).

The Hawai'i Visitors and Convention Bureau (HVCB) first published the Visitor Plant Inventory in 1964 and every year thereafter, except 1995 and 1998. HVCB did not conduct a survey in 1995 and did not publish hard copies of the report in 1998. The Department of Business, Economic Development and Tourism (DBEDT) published the VPI reports annually from 1999 through 2008.

The 2011 Visitor Plant Inventory report is posted on the HTA website:
www.hawaiitourismauthority.org/research.

For further information, contact HTA at (808) 973-2255, www.hawaiitourismauthority.org.

OVERVIEW

State of Hawai'i

The total State of Hawai'i visitor plant inventory for 2011 increased to 77,731 visitor units, 3.7 percent higher than 2010 [Figure 1]¹. While there was new inventory added to the market, including The Waikiki Edition² and Wyndham's Kōloa Landing at Po'ipū Beach, the increase in visitor units was largely due to the identification of visitor units that were likely in existence, but not counted in prior surveys and the re-identification of IVU-condo units which had previously opted out of condo hotel rental pools.³

Since 2008, the number of condo hotel units generally decreased, indicating lower participation in condo hotel rental pools [Figure 2]. This trend was reflected by an increase in the overall number of lodging operations in the State, as former condo hotel units were now operated as separate IVUs.

Reductions to the state visitor supply included the closure of Kona Village due to tsunami damage and conversion of individual vacation units (IVUs) to long-term rentals.

Nearly half (45.0 percent) of the State lodging supply was located on O'ahu, with the majority of units located in Waikiki. Maui hosted just over a quarter (26.9 percent) of the State supply. Moloka'i and Lāna'i had the fewest lodging units and combined total just over one percent of the all Hawai'i lodging units.

The majority of the lodging supply in the State was hotel units (55.1 percent), but hotels accounted for only 7.0 percent of all lodging

operations. Because IVU operations include many single-unit properties, IVUs were the most numerous lodging operation in the State (71.1 percent).

Figure 1

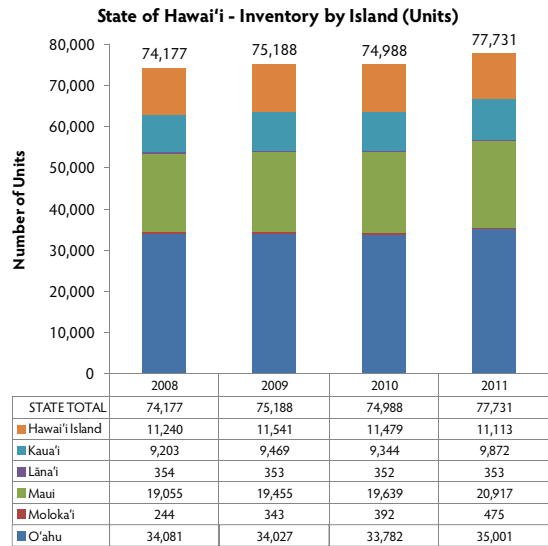

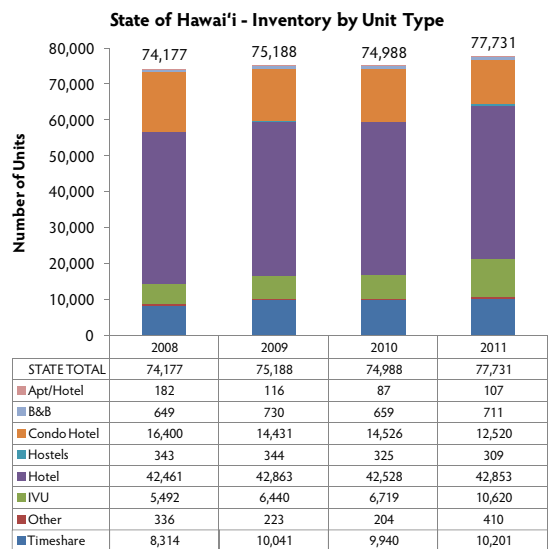

Figure 2

¹ Data for 2010 was restated. See page 85 for a list of changes.

² This property was later renamed "The Modern Honolulu."

³ A number of IVU additions were identified by condominium association managers and County of Maui and County of Kaua'i Real Property Tax Divisions.

The average number of units per hotel operation was 310.5 units. In contrast, the average number of units per IVU operation was 7.6 units.

Overall, 16.1 percent of units were condo hotel and 13.1 percent were timeshare. The average number of units per condo hotel operation was 103.5, and the average number of units per timeshare operation was 132.5. Hostels averaged 30.9 beds per property. B&Bs were the smallest lodging type, with an average of 3.6 units per property.

The State visitor supply continued to be concentrated in the Deluxe and Standard price classes for 2011 [Figure 5]. However, Hawai'i units were increasingly trending towards the Luxury price class. This trend was somewhat influenced by the growth in multi-bed lodging options such as IVU rental houses and villas, IVU condos, and timeshares. These larger units accommodate more guests than a traditional hotel room and were typically priced to reflect this. Budget units had also declined over time, partly due to overall prices rising due to inflation and also as a result of the closure of Budget properties such as Banana Bungalow Waikiki Beach hostel, Kāhili Mountain Park, Town Inn, Shirakawa Motel, and Celebrity Resorts White Sands timeshare.

Figure 4

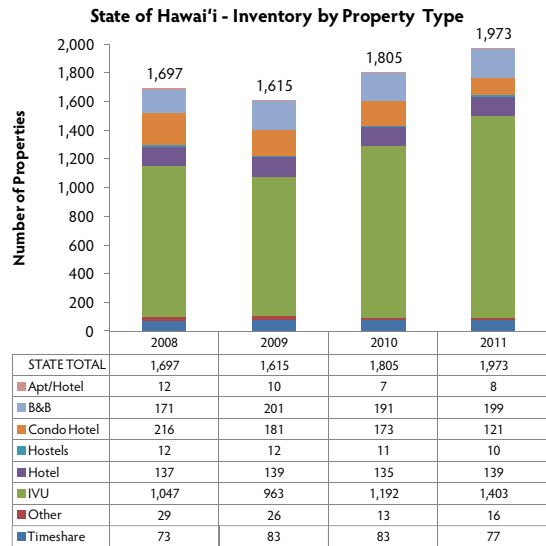

Figure 5

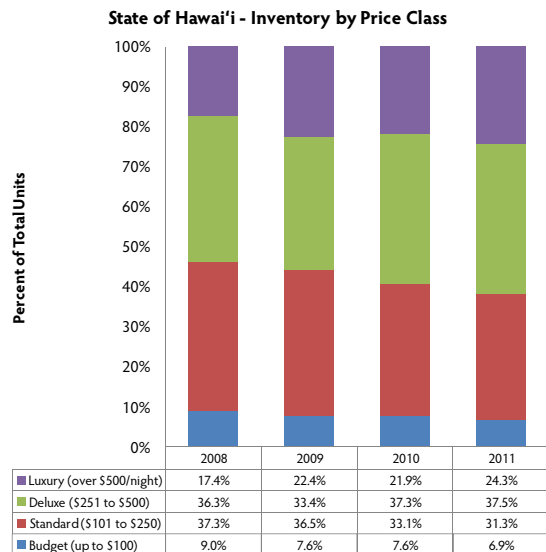

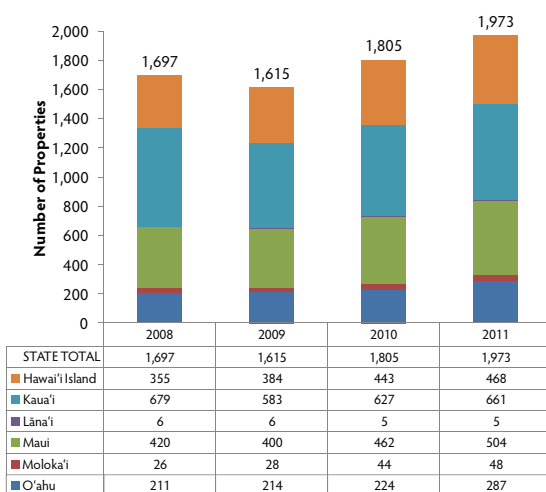

Figure 3

State of Hawai'i - Inventory by Island (Properties)

Inventory by Island

Hawai'i Island

Hawai'i Island was the only island which reported fewer visitor units in 2011, down 3.2 percent from 2010.⁴ Reductions to Hawai'i Island's lodging supply included the closure of Kona Village in March 2011 due to tsunami damage, closure of certain bed and breakfast properties, and conversion of IVUs to long-term rentals.

- Hotels continued to comprise the bulk of Hawai'i Island's visitor plant inventory (6,811 units) [Figure 6].
- Despite fewer IVU units reported in 2011, the number of IVU properties increased for Hawai'i Island, reflecting the growing trend of self-managed/self-marketed lodging [Figure 7]. Such vacation rentals can be found on "vacation rental by owner" (VRBO) websites.

- In 2011, a higher proportion of visitor units were categorized in the Luxury and Deluxe price classes [Figure 8]. This was consistent with the bulk of Hawai'i Island's visitor supply being located in luxury Kohala Coast resort areas.

Figure 7

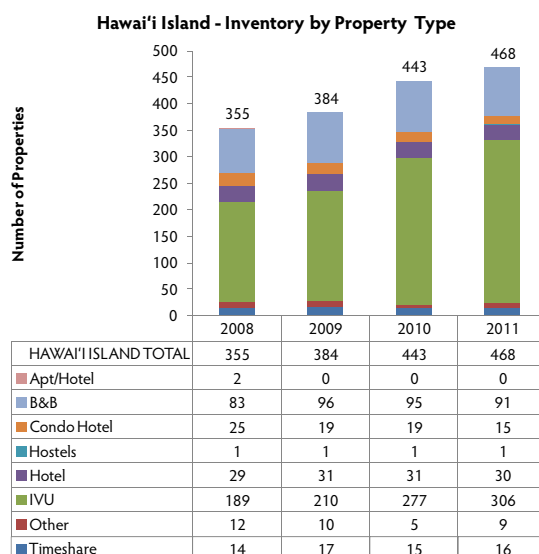

Figure 6

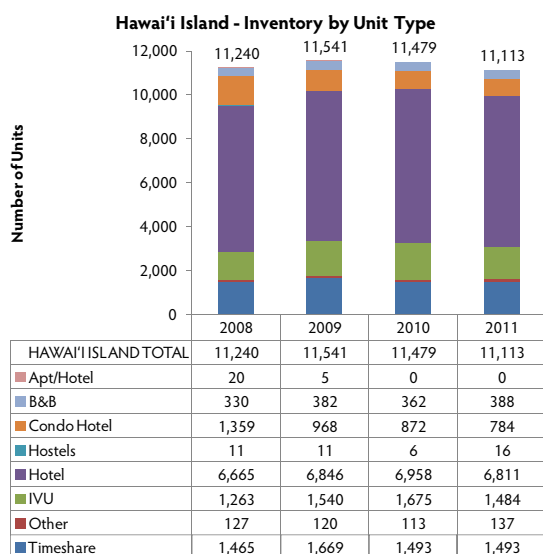

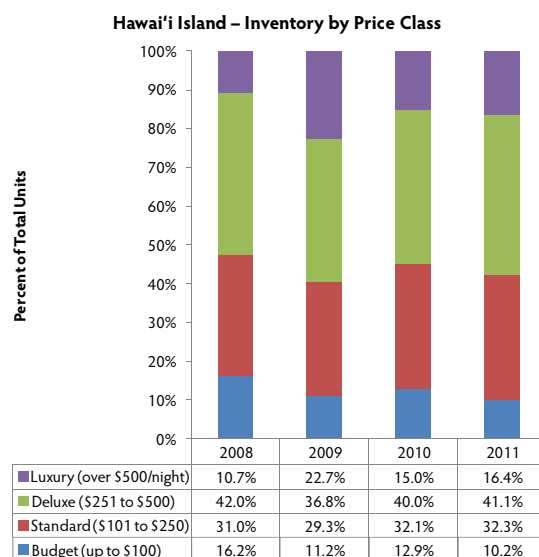

Figure 8

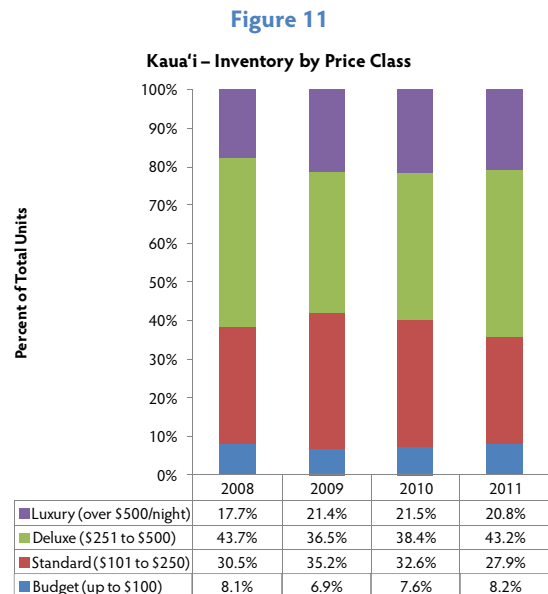

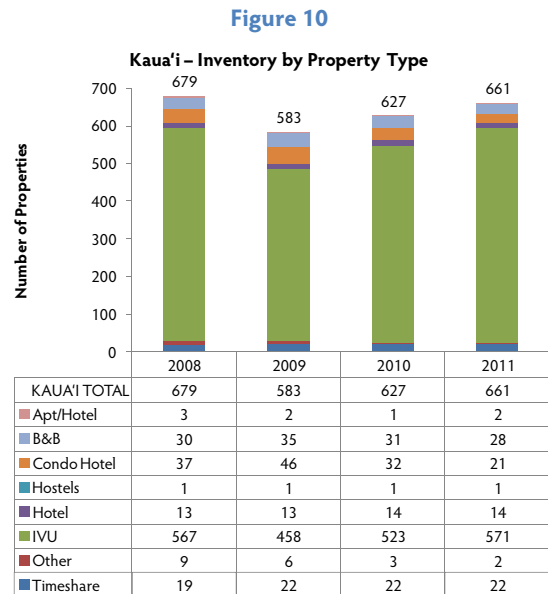

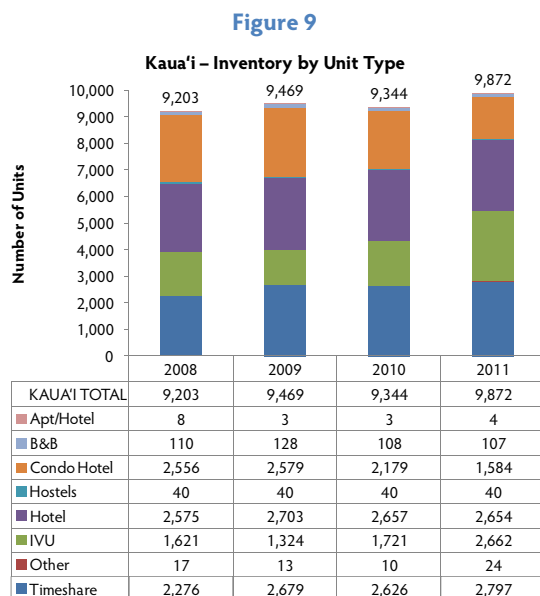

⁴ Data for 2010 was restated. See page 85 for a list of changes.

Kaua'i

The overall visitor unit count on Kaua'i rose by 5.7 percent to 9,872 units in 2011. Notable changes to Kaua'i lodging supply included the opening of Wyndham's Kōloa Landing project and identification of additional IVUs.

- The number of Kaua'i condo hotel units reported continued to decrease in 2011, reflecting smaller rental pools and reclassification of individual units to IVU [Figure 9]. As in past years, the growth in IVUs was also impacted by the identification of units that had not participated in prior VPI surveys.
- The overall number of IVU operations increased in 2011, reflecting the growing trends of rental management companies with units spread over many condominium buildings and VRBO operations [Figure 10].
- Kaua'i's visitor supply remained predominately in the Standard and Deluxe price classes [Figure 11].

Maui

The overall number of lodging units on Maui increased significantly (+6.5 percent) in 2011 due to the County of Maui's new reporting requirements for unit use.⁵ This data was used to identify many IVU-condo units that were likely reported in rental pools for past VPI reports but were operated on an independent basis for 2011.

- In particular, the number of IVU units, predominately IVU-condo, increased by over 2,500 units [Figure 12]. This dramatic increase completely overshadowed the few properties that closed their doors since the last VPI survey.
- Maui reported an increase of 11 B&B operations for 2011 [Figure 13].
- The majority of Maui's visitor units were in the Luxury and Deluxe price classes as the bulk of Maui's supply consists of high-end properties in the luxury regions of Wailea and Lahaina - Kā'anapali - Nāpili - Kapalua [Figure 14].

Figure 12

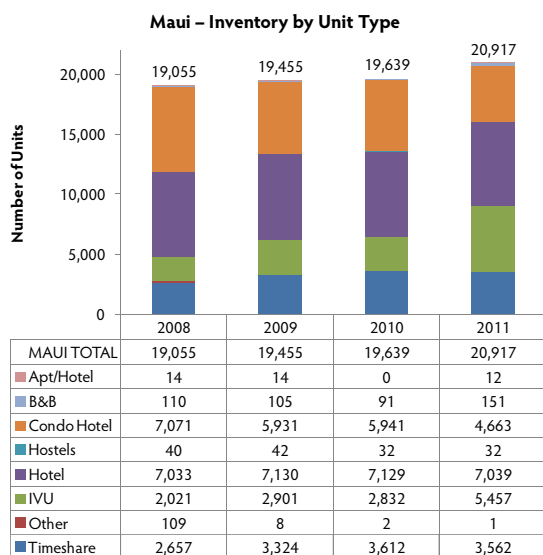

Figure 13

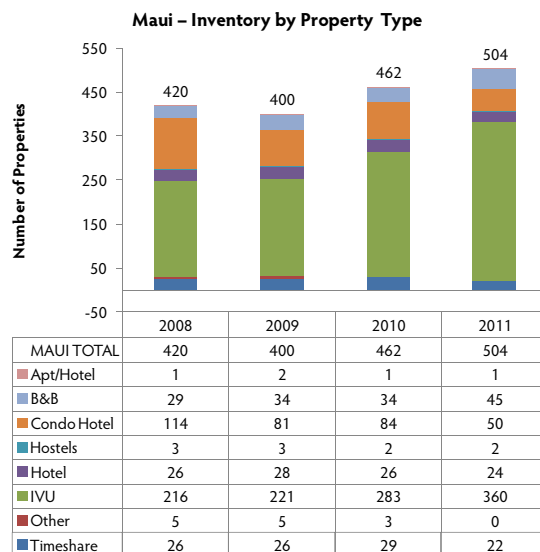

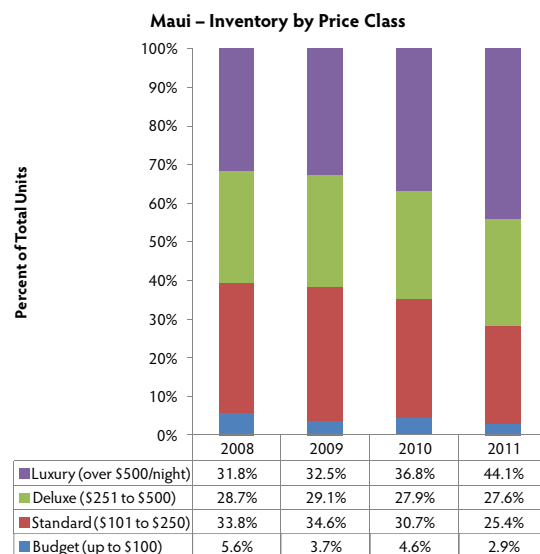

Figure 14

⁵ As of September 2010, the County of Maui requires condominium associations to file an annual report declaring the actual use of all units within their project. See Methodology page 85 for additional information.

Moloka'i

The overall visitor unit count on Moloka'i went up in 2011 due to a significant increase in IVUs participating in the 2011 survey. These units were likely in service in prior years.

- While new IVUs were identified in 2011, the increase in IVUs was also impacted by units that were formerly part of condo hotel operations that were now operated as IVU-condo in 2011. Additional IVU-condo units were identified as a result of County of Maui reporting requirements.⁶
- There were no hotels,⁷ apartment hotels, or hostels on Moloka'i in 2011 [Figure 16].
- The majority of units on Moloka'i fell within the Standard price class (65.2 percent) [Figure 17].

Figure 16

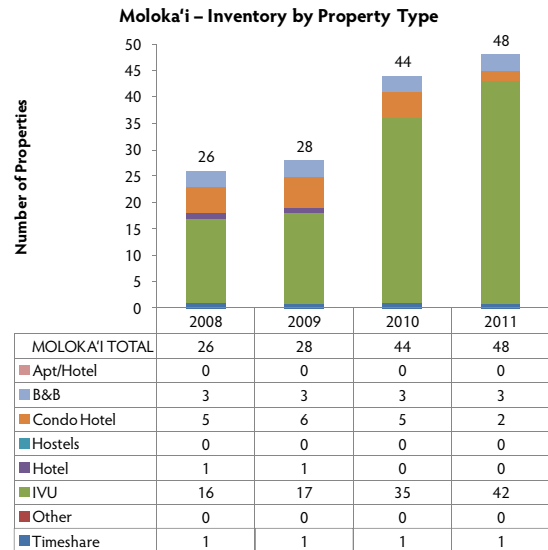

Figure 17

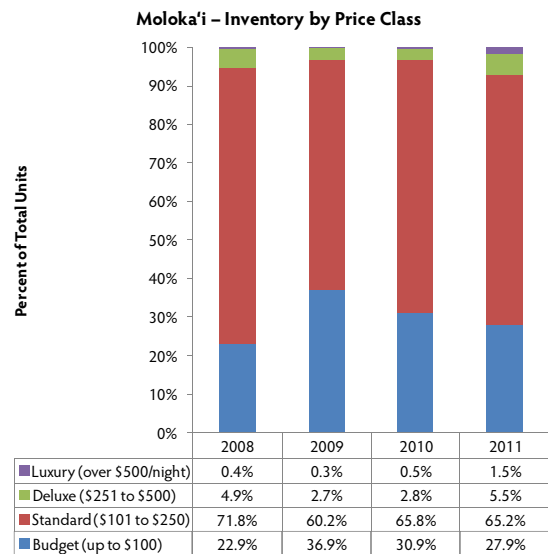

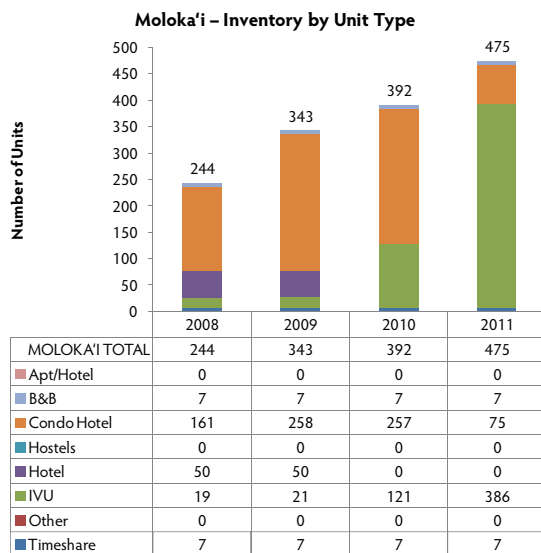

Figure 15

⁶ As of September 2010, the County of Maui requires condominium associations to file an annual report declaring the actual use of all units within their project. See Methodology page 85 for additional information.

⁷ Data for 2010 was restated. See page 85 for a list of changes.

Lānaʻi

There was practically no change in the visitor supply on Lānaʻi. Dreams Come True Bed & Breakfast reported one more unit than it did in 2010.

- Hotels comprised the majority of Lānaʻi's lodging supply. All other property types totaled only 5 units [Figure 18].
- Lānaʻi was the only island where no timeshare units were reported.
- Nearly all of Lānaʻi's units fell within the Luxury and Deluxe price classes (96.1 percent) [Figure 20].

Figure 18

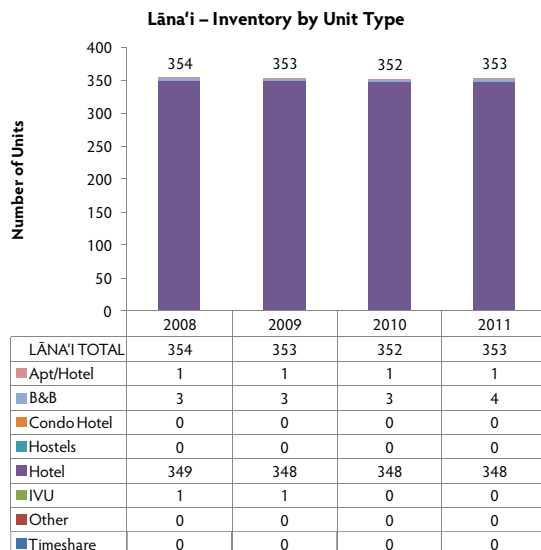

Figure 19

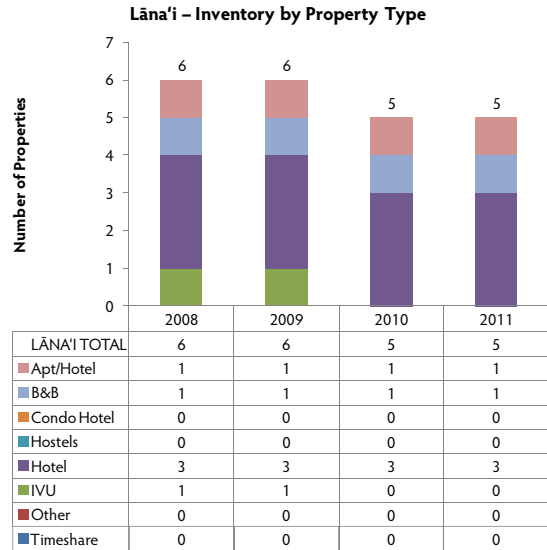

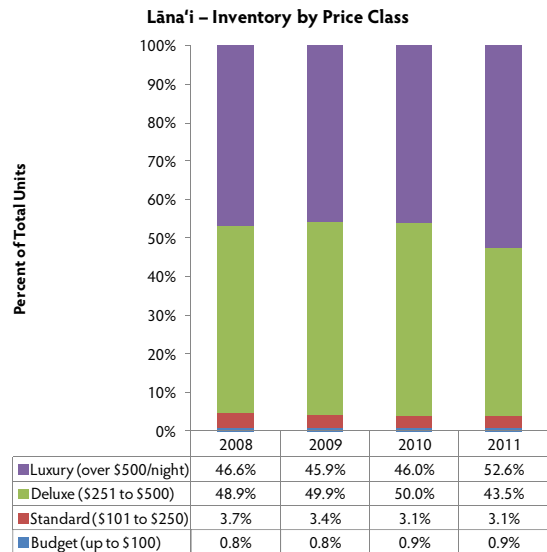

Figure 20

O'ahu

The overall number of visitor units on O'ahu increased by 3.6 percent over 2010.⁸ Significant changes to O'ahu's visitor supply⁹ include the opening of the 353-room The Waikiki Edition which opened in late 2010 and the inclusion of additional vacation units located at military bases and recreation facilities.¹⁰

- The number of timeshare units on O'ahu increased by 6.4 percent with the completion of the 140-unit Wyndham at Royal Garden timeshare [Figure 21].
- The majority of the growth in lodging properties consisted of IVU operations [Figure 22].
- Most of O'ahu's visitor units were categorized as Standard or Deluxe price classes [Figure 23].

Figure 22

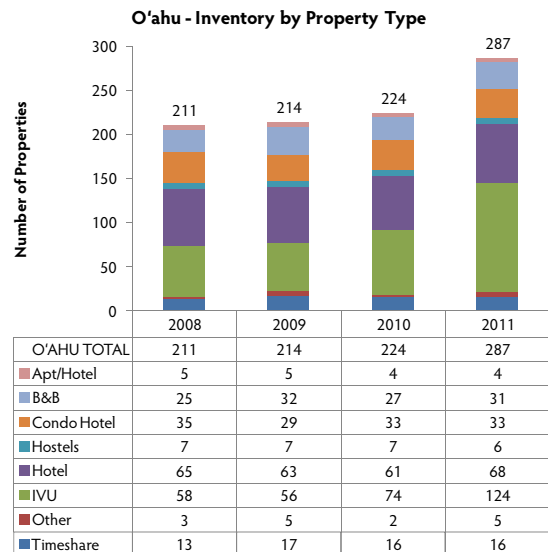

Figure 23

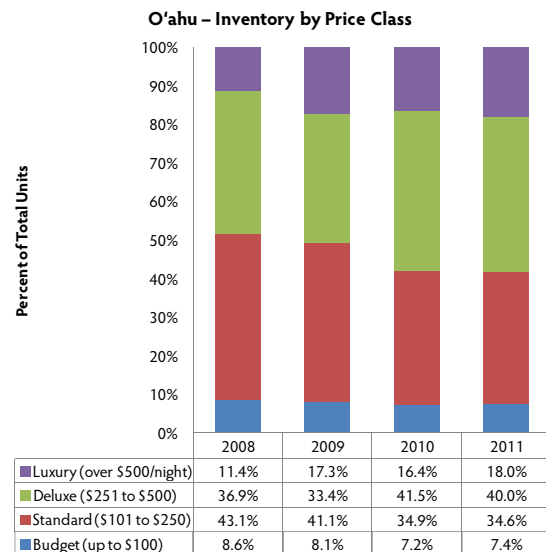

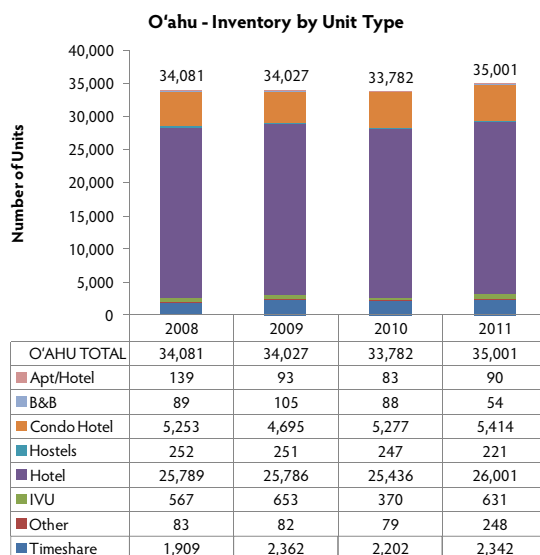

Figure 21

⁸ Data for 2010 was restated. See page 85 for a list of changes.

⁹ While Disney's Aulani project opened in late August 2011, it was not included in the 2011 VPI.

¹⁰ The Hale Koa has been included in previous VPI reports.

Inventory by Type

Hotels

O'ahu continues to house the majority of Hawai'i's hotel units (60.7 percent) [Figure 24]. There were no hotels on Moloka'i. Major changes to the 2011 hotel supply¹¹ include the opening of The Waikiki Edition, the inclusion of additional military hotels¹² in this year's VPI, and the closure of Kona Village.

Figure 24

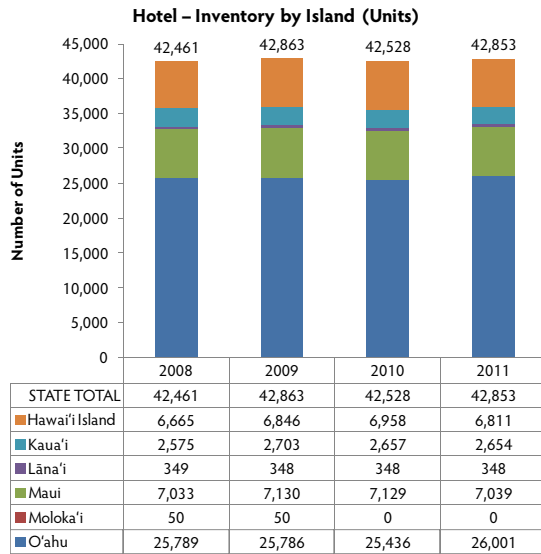

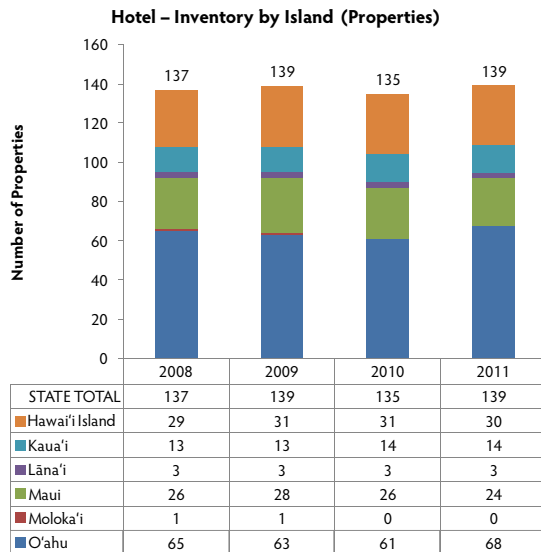

Figure 25

Condominium Hotels

The overall number of statewide condo hotel units decreased by nearly 2,000 units from the prior year [Figure 26]. This decrease was driven primarily by lower participation in managed rental pools and reclassification of units from condo hotel to IVU [Figure 27].

Figure 26

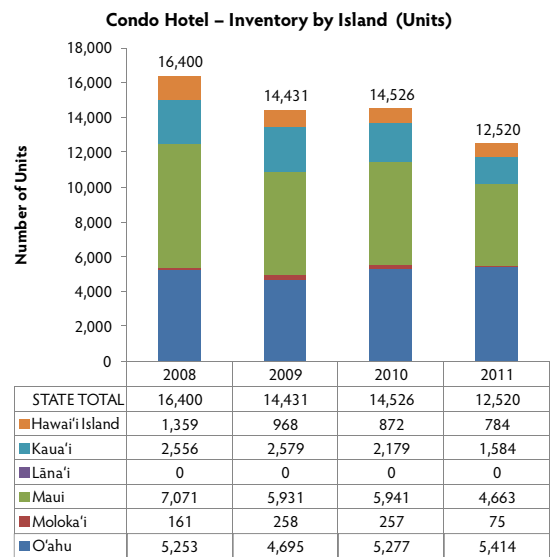

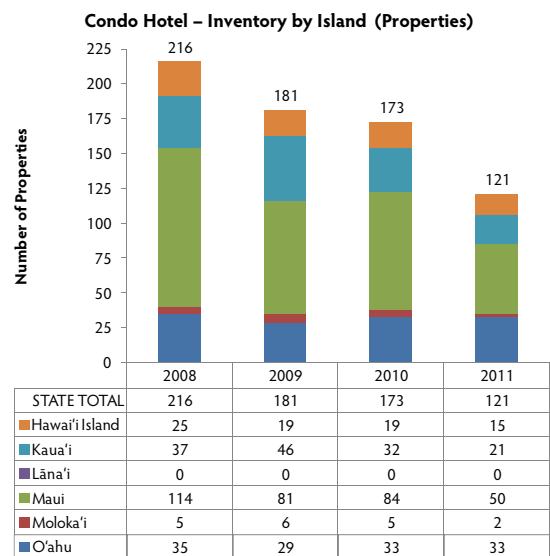

Figure 27

¹¹ While Disney's Aulani project opened in late August 2011, it was not included in the 2011 VPI.

¹² The Hale Koa has been included in previous VPI reports.

Timeshares

The overall number of statewide operated timeshare units increased since the 2010 survey.¹³ The Wyndham at Royal Garden, which opened in April 2011, represents the only new project introduced into the market.¹⁴

The island of Maui has the most timeshare units, representing 34.9 percent of the State's timeshare supply [Figure 28].

Figure 28

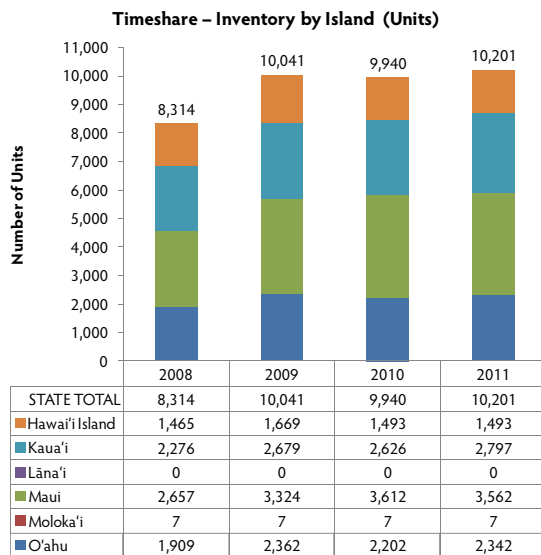

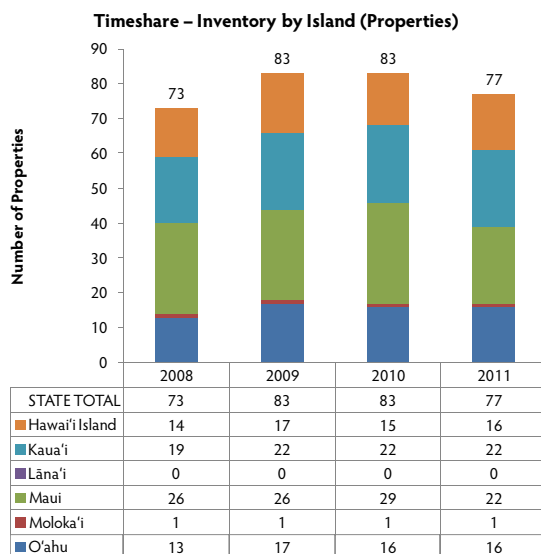

Figure 29

Individual Vacation Units

The number of IVU units increased dramatically for 2011. This growth was driven by increased identification of IVU units as more units were advertised over the internet, and identification of IVU-condo units by the County of Maui¹⁵ [Figure 30].

Maui has the largest number of IVU units (51.4 percent). Kaua'i has the most IVU properties (40.7 percent) [Figure 31].

Figure 30

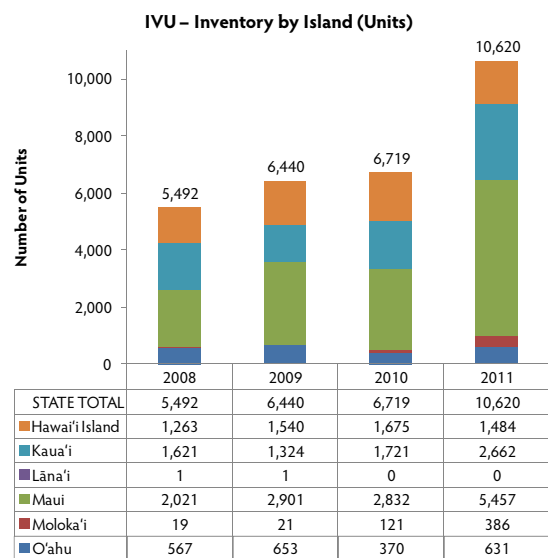

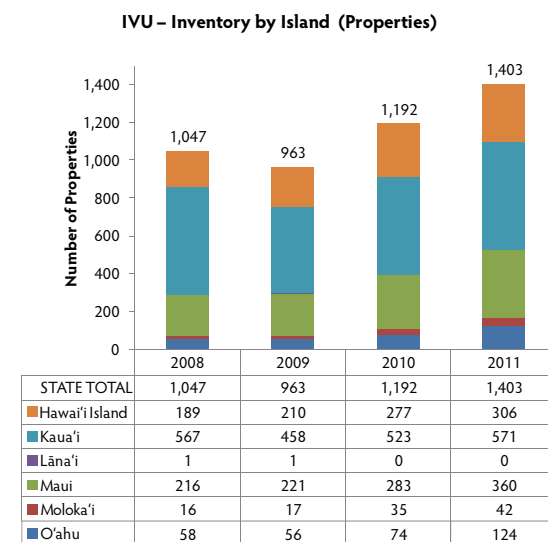

Figure 31

¹³ Data for 2010 was restated. See page 85 for a list of changes.

¹⁴ While Disney's Aulani project opened in late August 2011, it was not included in the 2011 VPI.

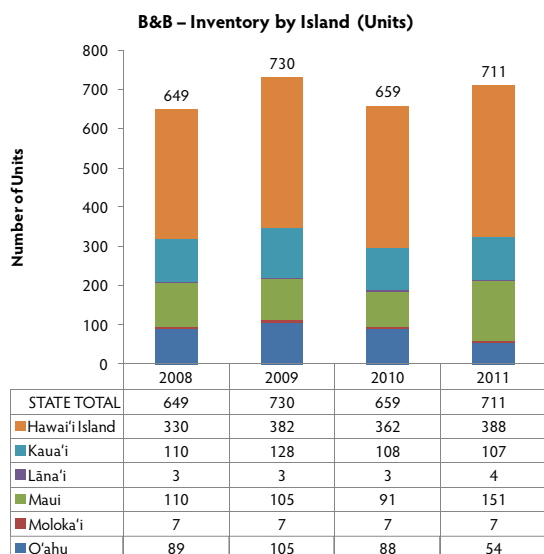

¹⁵ See Methodology page 85 for additional information.

Bed & Breakfasts

The overall number of statewide B&B units reported increased for 2011 [Figure 32]. Maui reported an increase in the number of B&B operations and units [Figure 33]. However, Hawai'i Island reported a decrease in B&B operations, but a few properties reported additional units for 2011.

The majority of B&B units were located on Hawai'i Island (54.6 percent).

Figure 32

Apartment/Hotels

While an increase in the state supply of apartment hotels was reported for the 2011 VPI, there were no new apartment hotel properties. Changes reflected in the 2011 VPI stem from the reclassification of a property on Maui from condo hotel to apartment hotel [Figure 34].

The overwhelming majority of apartment hotel units were located on O'ahu (84.1 percent).

Figure 34

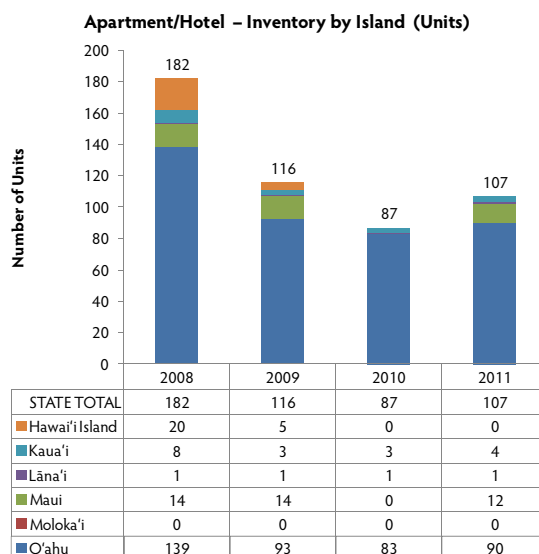

Figure 33

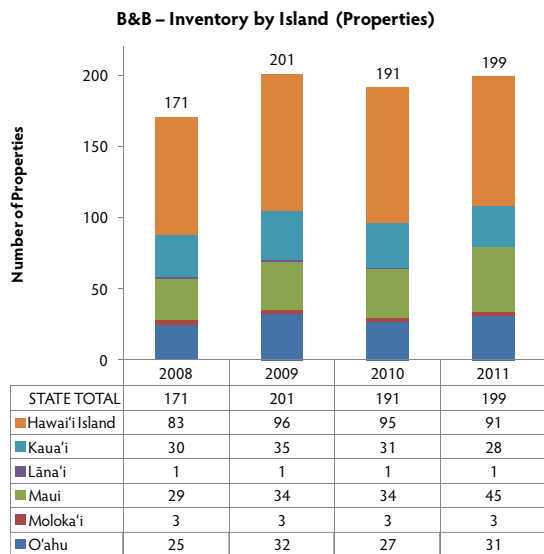

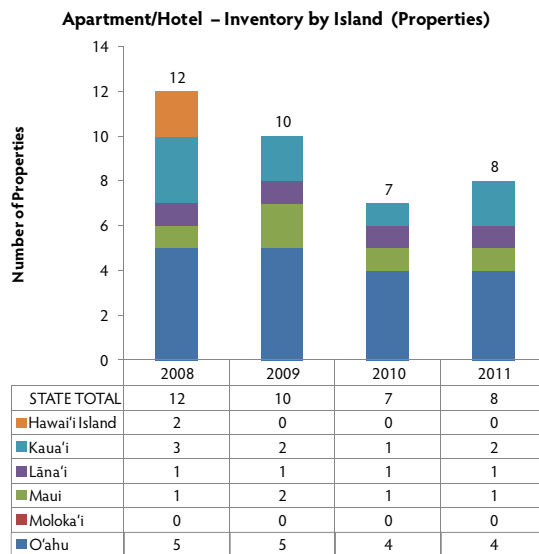

Figure 35

Hostels

In 2011, there were only 10 hostel properties in the state. A hostel closed on O'ahu, but otherwise the hostel supply has remained flat on other islands [Figure 37].

71.5 percent of hostel units were located on O'ahu [Figure 36].

Figure 36

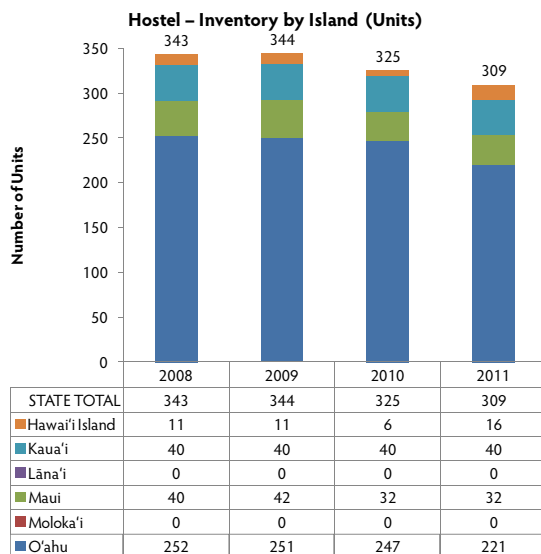

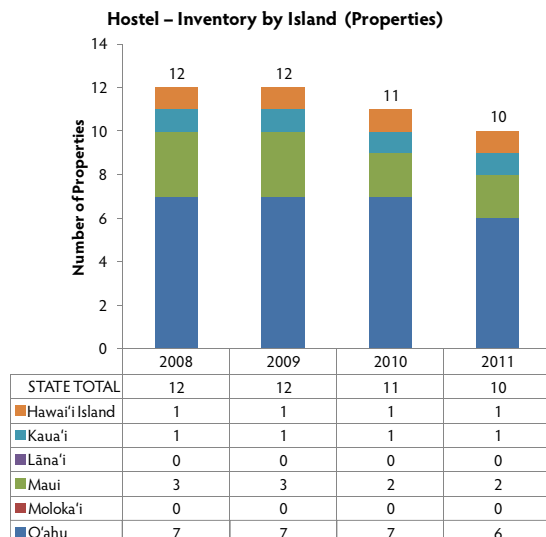

Figure 37

Other

The overall number of Other lodging units increased primarily due to the inclusion of military recreational units [Figure 38]. Prior VPI included only Kilauea Military Camp.

60.5 percent of Other lodging units were located on O'ahu, and 33.4 percent were located on Hawai'i Island.

	Maui Beach House	IVU Rental House	1	Converted to long-term rental
	Tradewind Beach House	IVU Rental House	1	No longer in operation.
O'AHU				
North Shore				
	Pounders Beach Rentals	IVU	1	Converted to long-term rental.
Waikiki/Honolulu				
	Ambassador of Waikiki	Hotel	91	Correction to 2010 VPI report.
	Waikiki Lanais	IVU	160	All units are owner occupied. Survey answered incorrectly in 2007.
Windward Side				
	Kailuana Place	B&B	1	Owner deceased and property sold 2011.

2011 VISITOR PLANT INVENTORY: LIST OF PROPERTIES

Explanation of Categories

- Island = Island on which the property is located
- Area = Area of the island where the property is located
- Name = Name of property
- Type = Unit Type
- Available Units = Number of units available for visitor use
- Change from 2010 = Difference in available units between 2011 and 2010 for entire property.
- Opened = Year property first opened

Class

- B Number of visitor units classified as Budget (Up to \$100 per night)
- S Number of visitor units classified as Standard (\$101 to \$250 per night)
- D Number of visitor units classified as Deluxe (\$251 to \$500 per night)
- L Number of visitor units classified as Luxury (Over \$500 per night)
- N/A Not available

Last Response

- 2011 Survey form received in 2011
- 2010 No response received in 2011, information received in 2010
- 2009 No response received in 2011, information received in 2009
- 2008 No response received in 2011, information received in 2008

Notes

- A – Visitor unit count estimated by AOA/Resident Manager/Property Manager (for units managed by others)
- B – Visitor unit count estimated by Owner/Operator (for units owned/managed by others)
- C – Visitor unit count estimated by county real property tax departments
- D – Visitor unit count estimated by DBEDT/HTA
- E – Visitor unit count estimated based on prior survey response.
- F – The property's reporting method changed from 2009
- G – Selected units closed for renovation/reconstruction (balance of the property open for business)
- H – Units reopened after renovation/reconstruction
- I – Added units (new construction)
- J – Survey responses indicate additional units available for transient rental
- K – Survey responses indicate units no longer available for transient rental
- L – Survey responses indicate change in supply. See Table 13
- M – Visitor unit count is for beds, not rooms, for Hostel property

METHODS AND PROCEDURES

The 2011 Visitor Plant Inventory presents the results of HTA's enumeration of visitor accommodations in Hawai'i. Existing visitor accommodations as of May 1, 2011 as well as planned developments and additions to existing developments were catalogued.

Visitor Plant Inventory Survey: Information about transient accommodations was gathered mainly from a survey of existing visitor accommodation properties and management companies. Survey forms were sent to general managers, property managers and other individuals who could provide information about the property. The survey provided information about available units, planned additions and other information presented in this report.

Survey forms were distributed to all properties that participated in the prior year's survey and additional properties identified through the association survey (below) and internet research. Over 2,100 properties were identified as part of a detailed web search using pertinent key word phrases, such as "Vacation Units In Hawaii," "Hawaii B&B," "Hawaii Hostels," etc. For the 2011 VPI, this search was expanded to include additional research related to private homes which may be available for transient rental, especially those located in resort residential areas. Information for hotel and condominium hotel properties that participate in Smith Travel Research's monthly survey were also cross-verified against Smith Travel Research's property database.

Survey forms were distributed via mail, email, and fax. If no response was received, follow-up telephone calls, emails, and/or faxes were made to the property to remind them to complete and return the form. Subsequently, if no response was received after the follow-ups, an

Internet search was conducted to determine if the property was still in business and telephone calls were made to verify unit counts and types. If no response was received or no data was found on the Internet, but information was available from prior years (2008, 2009, and 2010), that information was included and so noted. If no response was received from a property and information was available from the association survey, such information was included and so noted. If no survey form was returned and no information was available from previous years or other sources, the property was listed as a non-respondent.

Association of Unit Owners Manager Survey: New for 2011, a survey of Association of Unit Owners ("AOUO") management companies for projects located in resort areas was conducted to gather information about transient rental units located within the project, especially IVU rental houses/villas and IVU-condo units. AOOU managers were also asked to identify rental management companies associated with such visitor units and also IVU-condo units which are being marketed by owners, including participation in Visitor Rental By Owner ("VRBO"), Home Away, etc. programs. Any identified rental management companies that were not previously contacted were sent VPI survey forms. Data from this survey was also used to estimate IVU-condo units for a given project.

Contact information included in the State of Hawai'i Department of Commerce and Consumer Affairs' AOOU Contact List and Developer's Public Report/Association Biennial Registration database was used in the administration of this survey. Letters and survey forms were distributed via mail, email, and fax and follow-up telephone calls, emails, and/or faxes were also made.

Association Survey: Continued in 2011, this survey's purpose was to gather contact information of associations whose members were transient visitor accommodations in the State of Hawai'i. Letters were sent to these associations to request member accommodation contact information, from which the mailing list was updated and new accommodations were contacted via mailing as described above.

Timeshare Properties: Information on timeshare properties were gathered through the survey questionnaire, which asked for information on the number of units *registered* as timeshare and units *operated* as timeshare. The number of units registered included those that were available for sale in a timeshare program (as well as those already sold in such a program). The number of units operated represented the units that were in use. Certain timeshare properties have the ability to split a given registered timeshare unit into more than one operated visitor unit (i.e. it may be possible for a two-bedroom unit to be rented as two keys: one studio unit and one 1-bedroom unit).

As of the 2009 VPI, the listing of timeshare inventory presented in Table 8 has been restated with registered units representing the number of units that were available to be sold as part of a timeshare program and operated units were defined as number of salable keys that were operated for visitor use. In some cases, the number of operating units exceed the number of registered units for a given timeshare property.

The available timeshare units listed in Tables 3 and 5 and their related charts were the total number of operated units. The number of timeshare properties listed in Tables 2 and 4 were the properties with the majority of units classified as timeshare. However, the number of available units listed with the timeshare category included those units that were cross-listed under

the other property types. The 2011 Current Visitor Plant Inventory details the unit types available at each property.

Starting with the 2009 VPI, certain timeshare operators reported their inventory counts in terms of individual guest rooms (keys) rather than timeshare units previously reported. For example, a two-bedroom timeshare unit may, depending configuration, be rented separately as two guest rooms: a one-bedroom unit and as a studio unit. This change in reporting procedure resulted in a higher inventory count for certain timeshare properties, but did not necessarily reflect a change in the physical plant.

Cross Verification of Data: Responses from selected hotels, condominium hotels, and timeshare properties were cross verified against Smith Travel Research's property database and data from the American Resort Development Association.

Responses were also cross-verified against data received from the four counties, including real property classifications, bed and breakfast license data, and transient vacation unit (TVU) license data.

As of September 2010, Maui County Code 3.48.305 section C, recently amended by ordinance No. 3766, requires condominium associations to file an annual report to the Real Property Tax division declaring the actual use of all units within their project, before December 1 of each calendar year. Units are to be identified as apartment, commercial, home owner, hotel/resort, and timeshare. This data was used in the estimation of overall timeshare and IVU-condo units for a given project.

Unit Type Classification: Each unit reported in the survey was assigned a unit type based on HTA's type definitions [page 87]. For the purposes of classification, a given property may

include more than one unit type. Historically, type classifications were self-selected by the respondent but research has shown that the response was not always consistent with HTA's type definitions. In such cases, the unit type was corrected for the 2011 VPI report.

Notably, many respondents classified their units as condominium hotel due to the units' location within a condominium building, but did not have the services or amenities included in HTA's definition for a condominium hotel. These units were reclassified as individual vacation units.

Property Type Classification: Classification of property type (Tables 2 & 4) for properties with more than one unit type was determined by the majority of units on that property. Historically property type was self-selected by the respondent but research has shown that the response was not always consistent with HTA's type definitions [page 87].

Planned New Developments: Information about planned new developments was gathered with assistance from the four county Planning Offices. The information was reprinted here and includes projects and developments that have achieved some level of jurisdictional approval. That was to say, these developments were a step beyond the preliminary stages of development and have some "official" standing as planned developments.

Changes to 2010 VPI Data for 2011: The 2010 data reported in the 2011 VPI varies from the 2010 VPI due to the following:

Hawai'i Island

- Hilton Grand Vacations Club at Waikoloa Beach Resort: Revised 2010 survey response received. Was 120 operated timeshare units, now 112 operated timeshare units (-8 units).

- Hilton King's Land: Revised 2010 survey response received. Was 198 operated timeshare units, now 172 operated timeshare units (-26 units).
- The Bay Club at Waikoloa Beach Resort: Revised 2010 survey response received. Was 167 operated timeshare units, now 158 operated timeshare units (-9 units).
- Holua Resort at Mauna Loa Village: Table 8 count of 73 units was correct. Incorrectly counted as 146 units in the inventory list (-73 units).
- Kona Coast Resort Phase II: Table 8 count of 200 units incorrect. Correctly listed as 199 units in inventory list.
- Paniolo Greens Resort: Table 8 count of 162 units incorrect. Correctly listed as 161 units in inventory list.

Kaua'i

- Westin Princeville Ocean Resort Villas: Table 8 count of 346 operated units incorrect. Correctly listed as 178 units in inventory list.

Maui

- Marriott's Maui Ocean Club: correctly listed as 719 operated units in Table 8. Incorrectly listed as 459 units in the inventory (+260 units).
- Maalaea Banyans: Correctly listed in inventory as 4 units, but inadvertently excluded from Table 8.
- Kihei 'Akahi: Correctly listed as 11 units in Table 8, but 11 timeshare units inadvertently excluded from inventory listing (+11 units).
- Maui Sunset: Correctly listed as 43 units in Table 8, but 43 timeshare units inadvertently excluded from inventory listing (+43 units).

Moloka'i

- Hotel Moloka'i: Correction of data entry error. Listed correctly in inventory as condo hotel, but was counted as hotel in tables.

Now counted correctly as condo hotel in tables.

O'ahu

- Ambassador Hotel of Waikīkī: Correction of data entry error. Was 315 hotel units, now 224 hotel units (-91 units.)
- Hilton Grand Waikikian: Revised 2010 survey response received. Was 331

operated timeshare units, now 183 operated timeshare units (-148 units).

- Condominium Fairway Villa: 19 timeshare units correctly reported in Table 8. 38 timeshare units were incorrectly reported in inventory (-19 units).

DEFINITIONS

Type of Units

An individual property may include more than one type of unit. If a property has more than one unit type, the majority unit type was used to determine the property type for the purposes of this report. Units were categorized as follows:

Apartment / Hotel (Apt/Hotel): Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.

Bed & Breakfast (B&B): A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns, or family homes.

Condominium Hotel (Condo Hotel): A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.

Hotel: A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.

Hostels: An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.

Individual Vacation Unit (IVU): An individual vacation unit can be classified as an IVU-condominium unit (not in a hotel rental operation), and IVU-house, villa, or cottage with very limited service, often with only basic cleaning supplies provided, or an IVU-cabin unit. They can also be reported as unclassified and are listed as an individual vacation unit.

Timeshare: A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, bed and breakfast, individual vacation home etc. for a specific period of time on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).

The survey questionnaire asks for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.

Other: Includes residential condominium units, timeshare units, motels, lodges, inns, or any other form of property not included in the above definitions.

Class of Units

The Visitor Plant Inventory survey also included questions about the class of units at each property. The subsequent tables show the percent of each class of units available by island. Units were classified as follows:

Class	Price Range (Rack Rate)
Budget	Up to \$100 per night
Standard	\$101 to \$250 per night
Deluxe	\$251 to \$500 per night
Luxury	Over \$500 per night

APPENDIX: SURVEY FORMS

New Participant Survey Form

The Hawai'i Tourism Authority is updating the State of Hawai'i annual Visitor Plant Inventory, the official census of visitor accommodations in the state. All information should be correct as of **May 1, 2011**. Definitions for each property type are listed on the Property Type Definition Sheet. Please sign the form and return it to Hospitality Advisors LLC by fax to (808) 550-8655 or email to survey@hospitalityadvisors.com. For further information or clarification, please contact Hospitality Advisors at (808) 550-8955. ***Mahalo for your cooperation.***

1. CURRENT NAME OF PROPERTY _____

Definition Sheet

VISITOR PLANT INVENTORY SURVEY DEFINITION SHEET

<i>Apartment / Hotel</i>	Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.
<i>Bed & Breakfast (B&B)</i>	A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns or family homes.
<i>Condominium Hotel</i>	A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.
<i>Hotel</i>	A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.
<i>Hostel</i>	An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.
<i>Individual Vacation Unit (IVU)</i>	An individual condominium unit (not in a hotel rental operation), house, cabin, villa or cottage with very limited service, often with only basic cleaning supplies provided.
<i>Timeshare</i>	<p>A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, apartment/hotel, bed and breakfast, individual vacation home etc. for a specific period of time and on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).</p> <p>The survey questionnaire asks for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.</p>
<i>Other</i>	Includes motels, lodges, inns, or any other form of property not included in the above definitions.
<i>Owner-Occupied</i>	Units not available for transient visitor use (30 days or less).
